

Aamir Khan saves the life of Dangal colleague

Perfectionist Aamir Khan known for being particular and perfect about each and every thing in his films has shown that his perfection and particularity is not limited to just movies, but it is about each and every thing related to his morals and humanity as he recently saved the life of a colleague from movie 'Dangal'.

The colleague mentioned above is National Film Award-winning sound engineer Shajith Koyeri. Koyeri had a severe attack and hence was carried immediately to the Lilavati Hospital on last Thursday. But unfortunately they had to wait for a long time to get a doctor to treat him. As this happened, his family immediately reached out to Aamir Khan and seeked his help. Aamir called at the hospital, and as soon as they received his call, the doctor rushed to the hospital as soon as possible. His MRI was done by the doctor and other required procedures and tests were also carried out. Also, Aamir moved him from that hospital to Kokilaben Dhirubhai Ambani Hospital in Andheri for the further treatment by 3 am at night. Aamir has good relations with the Ambani Family, the owner of the Kokilaben Dhirubhai Ambani Hospital and hence the transfer was easily done.

After he suffered from the attack, Koyeri underwent an MRI. When he was admitted, the hospital staff immediately took him to the ICU, but there was no doctor to attend him or examine his condition. Even on complaining a lot of times, no one showed up. As the last option left, his family had to reach out to Aamir for his help. One of his family member said, "Had he not been there, who knows how bad it could have been?" Here, Aamir Khan again turned out to be a good friend and a good human as he saved the life of Koyeri.
